

Future Professional Goals

Ying Feng Kline

Short-term Professional Goals:

- ☞ To revise the blended course that I taught in the Spring semester of 2018 according to principles adored by Startalk as well as the teaching skills and technologies that I have learned in the UVs program.
- ☞ To optimize the curriculum design at the level that I coordinator at Penn State and to further improve my F2F classroom teaching following the principles of language teaching. (i.e. input flood, student-centered instruction, authentic materials, performance-based assessment, differentiated instruction, incorporate culture content into language learning etc.)
- ☞ To refine my question-asking skills and practice more on scaffolding question. Hopefully I can have 2 or 3 new teaching demo videos done that embodies the principles and skills that mentioned above.

Long-term Professional Goals:

- ☞ To attend more workshop/conference focus on technology teaching. I will propose a new online or hybrid course in the coming semester.
- ☞ To gain a higher degree
- ☞ To learn and practice more on academic writing techniques and doing research in language teaching and education field. Hopefully I can have 1-2 paper completed at publish or close to publish level.
