

Evon Xu

Professional Goals

1. I will continue to integrate technology into Chinese classroom teaching. Technology has become part of student's life now. Using technology in the classroom makes learning relevant to students. Another reason for technology integration is the necessity of today's students to have 21st century skills. I will continue to participate "Future Ready Teacher Cohort".

2. I will continue to serve as the chair for our World Language Department. I will continue to participate "Leadership Cohort", and "Washington State Teacher Lead Cohort."

3. In addition, I plan to enhance my skills on "using target language in the classroom teaching" and "Input Flood and Pushed Output."
