

Emily Cheng

I am an advocate for language education with more than 18 years of teaching and managing experience. I would love to build solid language programs and make my school district more attractive to potential residents and employers.

I became a member of the Alief Hastings family as a full-time ESL teacher in 2003. My assignments extended to include teaching various levels of Chinese since 2008. I was appointed the team leader of the Alief Chinese teachers. In addition to being a teacher and leader, I am a devoted community educator. I oversaw the Houston Chinese

Church School's operation as Principal for two and a half years. Meanwhile, I managed the ten-campus Houston Chinese School Association as President from 2012 to 2013. I routinely organized teacher training, speeches and workshops to assist teachers and administrators. I also set up culture classes, exhibits, and contests to engage the public.

I believe my background in ESL, Foreign Language, and my community experience will improve academic performance, create positive attitudes toward people, and build a sought-after district.
