

Professional Goals

Mei Hu

As a teacher, I want to be an expert in the knowledge of my subject content and pedagogy, who is proficient in choosing appropriate resources and designing effective learning tasks to motivate and engage all students; I want to create the classroom environment of respect and rapport, in which I have good interaction with students and establish a culture of learning in school and outside of school for students ; I want to have positive influence on students to help them set goals and work hard to realize their dreams ; I want to be an active member of the school professional learning network and join more professional organizations in teaching field. I hope I can publish papers about language learning from my first-hand teaching experience and share with other teachers. I hope I will have chances to teach in different school settings including K-12 and colleges.
