

## Self-Introduction

My name is Yunghung Sandra Hsiao. I have been teaching Chinese at Indian Trail High School & Academy since 2002. Teaching grades 9-12 students is challenging, due to different cultural perspectives, but many of my students brighten up my days often. I enjoy working with my students and am eager to share my home culture and language with them. I hope that they will enjoy being in my classroom and will appreciate the target language and culture. More importantly, I hope that my students can use Chinese in their daily lives and they can become life-long learners.
