

Professional Goals

Huayi Zhang

1. I will design a thematic curriculum.
2. I will keep more than 90 percent usage of target language in my classes.
3. I will use authentic material and design the kind of activities which students can relate what they have learned in the class in the real world.
4. I will develop students' four communication skills (listening, speaking, reading, and writing) through a wide range of communicative activities.
5. I will incorporate culture into my class. Because it satisfies the foreign language requirement, in a way it is a required course for students.
6. I will conduct performance-based assessment, making rubrics.
7. I will use backward designed in my lesson preparation.
8. I will always incorporate technology in my class to facilitate the teaching and students' learning.
9. I will try my best to make the class more interesting so the students can be focused.
10. I will try my best to make the atmosphere of class more relaxed so the students do not afraid to make mistakes in front of others.
