## Let's practice using the chopsticks:

First, hold the upper chopstick like a pencil, about one-third of the way from its top.

Next, place the second chopstick against your ring finger, holding it with the base of the thumb. It should be pointing the same way as the first chopstick.

Move the upper chopstick with your thumb, index, and middle fingers. Grab food between the lower and upper chopsticks.

## How to Hold Chopsticks

## Bad manners:

- Waving chopsticks above food dishes.
- Sticking chopsticks into food instead of picking them up.
- Picking up a cup/bowl with the hand that is holding your chopsticks.
- Sucking chopsticks.
- Sticking chopsticks vertically into a bowl of rice.
- Passing food from your chopsticks to somebody else's chopsticks.

# Activity:

Such a great dinner! Tell your partner all the drinks and dishes on a Chinese restaurant table.
